

World leader in vehicle de-pollution technology

SEDA All-In-One Solution N-527513

Efficiency, safety and ergonomics are keywords in today's recycling companies. For this reason, SEDA has developed an All-In-One Solution together with car manufacturers and dismantlers.

This solution is the first complete system for ELV de-pollution and dismantling which now can be performed on a new special TiltLift by one person independently.

Your benefits:

- ✓ Parts removal and drainage at the same place
- ✓ No further transfers necessary
- ✓ High ergonomics through optimum working heights and ideally positioned tools
- ✓ Maximum efficiency
- ✓ Optimal use of space
- ✓ Increases safety by reducing forklift traffic
