SEDA FuelVacuumKuli

S-35800 | S-35801

„The SEDA Fuel Vacuum Kuli is the efficient solution if your tank has to get drained quickly!“

Josef Kogl,
Technical Advice

Your benefits

- ✓ Strong suction power
- ✓ Long tank suction hose
- ✓ Adapter connection set for different tank lines
- ✓ Optical level unit
- ✓ Easy handling
- ✓ Activated carbon filter against vapour
- ✓ TÜV certified

Fuel tank drainage

The successful SEDA FuelVacuumKuli (petrol and diesel) is the perfect solution for emptying tanks of vehicles like cars or motorbikes. This high-quality product removes fuel after for instance incorrect refuelling or repair work.

The unit consists of a mobile container (85 liters), a silenced vacuum system, an active carbon filter, a tank suction hose and an adapter connection set.

Containers for diesel are also available in a green color.

This device is used by fuel stations and Automobile Associations like the Austrian ÖAMTC!
