

World leading in vehicle  
drainage technology

## SEDA Rapid A-51025

### Scrap car de-pollution system

### Your benefits:

- ✓ Air powered
- ✓ Plug-and-play solution
- ✓ Very flexible system
- ✓ Quiet and robust
- ✓ Easy handling
- ✓ Double-sided use possible
- ✓ Explosion proofed ATEX certified TankDrilling-Machine

The SEDA Rapid is a simple, modern and flexible station designed for mid-size dismantlers. It is possible to remove 98% of all fluids from up to 30 ELVs per day in an environmental friendly way.

With compact dimensions and the innovative SEDA drainage technology, the SEDA Rapid station represents a simple to install and simple to use end of life vehicle de-pollution system that is right up to date. Individual air powered pumps, the SEDA TankDrillingMachine and special tools allow simultaneous fluid removal saving you time and money.

The station can be combined with a variety of different static, tilting or lifting ramps or can be built around your existing vehicle ramp. **Double-sided use is also possible.**

„The SEDA Rapid is ready to run immediately and clearly stored with the pumps at the top!“

Werner Borgfeldt  
SEDA Quality Manager

### Two versions available:

- SEDA Rapid **Basic** can be compiled individually on request
- SEDA Rapid **Quick Install** pre-assembled and prepared

### Components:

- SEDA TankDrillingMachine
- 5 Vacuum pumps: Petrol, Diesel, Waste oil, Coolant-, Screenwasher fluid
- Swing arms with funnel
- Vacuum tanks: Brake fluid
- Special tools
- universal SEDA Plugs
- add. Tools/Accessoires

## SEDA Rapid A-51025

### Scrap car de-pollution system

A big benefit of the SEDA Rapid (Quick Install) is the fact that 95% is already pre-assembled at our factory. This saves you time and money while installing.

Alternatively you can choose your individual SEDA Rapid system (f.e. a mobile SEDA TankDrillingMachine with only one swingarm, different vehicle ramp, etc.). Please send us a request for an offer.

### + Your benefits:

App. 10-12 minutes  
of de-pollution time  
per car

A lot of space due  
to pre-installed  
pumps at the top

Explosion proofed  
ATEX certified  
TankDrilling-  
Machine

Fuel quality control

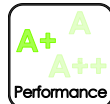

Suitable to different vehicle  
lifting systems

Additional hose  
reel and hidden  
hoses in swing  
arms

• Double-sided use  
possible

Efficiently remove  
gear and engine  
oil by the double  
funnel

Little space required

With single lifting ramp

Separate pumps on top

Easy control panel

Double-sided use

Compact transport

#### TECHNICAL DETAILS

**Air requirements:** 8,5 bar – 1.350 l/min  
**Cons. Evacuation:** 2.900 l/car  
**Drainage time:** app. 10-12 min/car\*  
**Fluid drainage:** Petrol/Diesel: 14 l/min  
Waste oil: 3 l/min  
Coolant fluid: 3 l/min  
Screenwasher fl.: 5 l/m.  
**Dimensions:** 6,9 x 3,5 x 4,3 m

#### ORDER INFORMATION

**A-51025** SEDA Rapid

#### Additional tools:

**L-527202** SingleLiftingRamp  
**S-52100** GearboxDrill. Machine  
**S-51312** SOG<sup>2</sup>

#### Alternative station:

**A-51027** SEDA EasyDrain

\* It depends on the car setup and in-plant flow of operations.
