

World leader in vehicle
de-pollution technology

**SEDA
ANC**

N-52680

Neutralized
airbag

Your benefits:

- Safe neutralizing
- Dust-free and silenced
- Door with safety lock
- Easy to operate
- Connector for up to 3 belt tensioners
- Integrated counter
- Filtered ventilation or straight exhaust

Leading Company
of Austria

Airbag Neutralization Cabin

The SEDA ANC makes safe deployment of dismantled airbags possible. With its optional exhaust fan, the Neutralization Cabin now makes it possible to neutralize restraint systems (airbags and seat-belt tensioners) with reduced noise levels and without particulate residue. All electronics have been upgraded for compatibility with the latest more static sensitive airbags and cable plugs are better protected.

Neutralized
belt tensioners

**Optionally, we offer an
antistatic set for
increased safety.**
